

12 days of Christmas – Liz's story

I volunteered with Citizens Advice in Croydon for 6 years and, when I moved to West Sussex, I joined to Citizens Advice in Arun & Chichester. When I originally joined Citizens Advice, I was delighted that I could still use my knowledge from working in the Health and Care sector. In Research & Campaigns we identify issues and trends on a local and national level. It gives great job satisfaction when the campaigns bear fruit and cause government to rethink or change course.
