## How to get your Covid Pass

You can get a digital version using the NHS App or NHS website. You can download it as a PDF or get it sent to you in an email.

You can get a digital version by:

- downloading the NHS App – you must be registered with a GP surgery in England to use the app. *This is not the same as the NHS Covid19 app.*
- using the online NHS COVID Pass service

You will need an NHS login to use these services. You'll be asked to create one if you do not have an NHS login already.

## Get a paper version (vaccination status only)

You can get an NHS COVID Pass letter sent to you in the post. It is also known as a COVID-19 post vaccination letter. The paper version does not have an expiry date.

This shows you've been vaccinated against COVID-19. It doesn't show COVID-19 test results. You can ask for a letter after having your 2nd dose of the vaccine, or after a single-dose Janssen vaccine. You may need to wait 5 working days before using the service, so that your record will be up to date.

You can use your letter at venues in England where you need to prove your COVID-19 status 2 weeks after you have been fully vaccinated.

You do not need to be registered with a GP surgery or have an NHS login for this.

You can get a letter by:

- requesting a COVID Pass letter online
- calling 119 (if you are overseas you need to call +44 151 905 0119 - you will be charged according to your carrier's rates) – do not call if you're travelling in more than 4 weeks' time

Children under 18 do not have to demonstrate their COVID-19 status for entry to domestic events or venues in England. Children aged 16 or over can get an NHS COVID Pass for travel but should follow the entry requirements of the country they are travelling to.
